

# 1755 BROADWAY MIDTOWN

Theatre District

## SPECIFICATIONS

<b>DESCRIPTION AND LOCATION</b>	Built by Jack Resnick & Sons in 1987 and designed by Emery Roth & Sons, this 43-Story, mixed-use building at the corner of Broadway and 56th Street combines an 8-story, 292,736 SF commercial/retail base and a 34-story, 480-unit luxury residential tower, Symphony House. With its rich, polished carmen red granite façade, clean lines, handsome plaza and impressive office and residential lobbies, the building is among New York's most impressive mixed-use properties.
<b>LOBBY</b>	Enter a dramatic double height space with bush hammered Bianco Carrara floors flanked by walls of alternating black metal ribs, LED backlit glass and streaming video monitors. The black metal ribbing is a nod to analog grooves in vinyl records, the backlit LED references digital light reading media and the monitors are inspired by music videos. One is greeted by a curved black metal ribbed concierge desk which feeds into glass turnstiles and a white glassed elevator lobby.
<b>BUILDING AREA</b>	292,382 SF
<b>FLOORS</b>	8 Floors Floors 2: 33,941 SF Floors 3-7: 34,523 SF Floor 8: 33,949 SF
<b>MAJOR TENANTS</b>	Universal Music Group, Wells Fargo Bank, Staples, GNC, Chipotle and Barbasso Wine Bar
<b>FLOOR LOAD</b>	50 lbs. per SF live load
<b>CEILING HEIGHTS</b>	11'4" slab-to-slab
<b>ELEVATORS</b>	Four (4) passenger elevators: Lobby - 8th floor - 3,000 lbs. cap. One (1) freight elevator: Basement - 9th floor - 3,500 lbs. cap.
<b>EMERGENCY POWER</b>	A 380-kW diesel generator provides back-up power to all fire, life safety and critical systems.
<b>SECURITY</b>	24/7 attended lobby. All common areas and exterior of building are monitored by CCTV cameras.
<b>LOADING DOCK</b>	56th Street loading dock with direct access to freight elevator.
<b>BASE BUILDING HVAC</b>	Three (3) 333-ton cooling towers provide condenser water to two (2) 45-ton VAV package DX units with economizer coils on each floor. Heat is provided by steam to hot water converter to perimeter fin tube radiation.
<b>SUPPLEMENTAL HVAC</b>	Supplemental condenser water available for tenant use.
<b>ELECTRICAL</b>	Floors individually metered, 2 meters per floor, 208V and 600-amps each. 200-amps for power and lights and 400-amps for A/C each.
